

BASEBALL

Teams \ Scores	Innings									
	1	2	3	4	5	6	7	8	9	Total

Suggested Rules

- Just like in real baseball, you move the runners around the bases to score.
- Throw your bag at any hole.
- 1st base hole counts as a Single; 2nd base hole counts as a Double; 3rd base hole counts as a Triple.
- A Single scores a runner on second and third. A single also moves the runner on first to second (not first to third).
- A Double scores a runner on second and third, and moves the runner on first to third (not first to home).
- A Triple scores everyone on base.
- A Homerun scores everyone on base, as well as the batter.
- Outs occurs when a bag does not go through a hole. Three outs and you're done; no fourth throw.

Example Turn at Bat

- 1st at bat: Throw your first bag into the 2nd base hole.
- 2nd at bat: Throw your second bag into the 1st base hole (scoring the runner on second, and you now have a runner on first).
- 3rd at bat: Throw your third bag into the 2nd base hole (moving the runner on first to third, and you now have runners on second and third).
- 4th at bat: Throw your fourth bag into the 1st base hole (scoring both runners on second and third).

Total runs for the inning = 3
